

Children's Dental Health Expands in Lehigh Valley

March 12, 2018 – Lehigh Valley, PA. Children's Dental Health is proud to announce the upcoming opening of two new, state-of-the-art pediatric dental offices in Easton and Trexlertown. The expansion into Lehigh Valley is part of an ongoing commitment to improve access to quality pediatric dental care and raise awareness on the importance of dental care at a young age.

"We're excited to extend our pediatric dental services throughout one of the fastest expanding areas in the region," said Dr. Steve Melnic, pediatric dentist serving both of the new Children's Dental Health locations. "These new locations will allow us to better meet the oral health needs of new and existing patients. With tooth decay being the most prevalent chronic disease in children, we know quality dental care is more important than ever for growing kids."

The Easton office will be relocating from 2762 Nazareth Road to Park Plaza Shopping Center, 1800 Sullivan Trail, Ste. 120, Easton, PA 18040, and will begin seeing patients on March 29, 2018. The second new office will be located at 6900 Hamilton Blvd., Trexlertown, PA 18087 and will begin seeing patients on April 23, 2018.

Children's Dental Health has been dedicated to serving infants through adolescents, including those with special needs, for more than 40 years. Each new dental office will continue to provide a comfortable experience in an engaging environment that includes:

- Fun, anxiety-reducing, and kid-friendly features such as movies, iPads, books, and toys.
- Comprehensive dental services, such as cleanings, X-rays, sealants, fillings, and crowns.
- For additional convenience, Children's Dental Health now offers new patients and their families scheduled office tours. Dental staff will navigate a parent/guardian and their child through a regular check-up experience, which is aimed to ease minds and allow an individual to become comfortable prior to a first-time visit.

"We're proud to provide a positive, patient-centered dental experience, and look forward to sharing this approach with the Lehigh Valley community," said Melnic.

Children's Dental Health accepts most forms of insurance including Medicaid and CHIP.

Children's Dental Health has been providing quality pediatric dental care to the community for more than 40 years. With more than 20 practices and pediatric dentists located throughout the state of Pennsylvania, we allow for convenient access to dental care that is engaging, fun, and educational for patients. With our "show, tell, do" method, our growing patients actively learn routines to ensure a healthy smile for years to come. Our gentle approach to pediatric dental care reflects our core mission of education and prevention. To learn more visit ChildrensDentalHealth.com or call 1-(866) KIDS-DENTAL.
