ATTESTATION AND CONSENT FOR DENTAL TREATMENT

Even after following protocols set by the American Dental Association and our state's dental association, it is still possible to contract COVID-19 while at a dental office. We are following all guidelines to minimize the risk of transmission.

- I have answered the screening questions truthfully and to the best of my knowledge.
- I knowingly and willingly consent to have dental treatment completed during the COVID-19 pandemic. I understand that the COVID-19 virus has a long incubation period during which carriers of this virus may not show symptoms and may still be highly contagious.
- I understand that due to the frequency of visits of other dental patients, the characteristics of the COVID-19 virus, and the characteristics of dental procedures there is an elevated risk of contracting the COVID-19 virus simply by being in a dental office.
